## Synopsis

**SNAKES: 101 SUPER FUN FACTS AND AMAZING PICTURES ( FEATURING THE WORLD'S TOP 10 SNAKES )** This book depicts the wonder of the world of Snakes in all its glory. Children are given a well-rounded understanding of this beautiful reptile: its anatomy, feeding habits and behavior. The following Snakes are featured: Anaconda Boa Constrictor Cobra Corn Snake Garter Python Rattlesnake Sea Snake California King Snake Milk Snake The description is in the large text and is simple enough for early readers or for a parent to guide a child through. There are also picture captions, which provides more information to talk about with your child. Alternatively, a child of any age (even the child in you) can just look at the images and appreciate its beauty. Enjoy!

## Customer Reviews

I have to admit I am not a fan of the snakes in general. In fact, I don't think I have read a complete book on snakes until this one. I found the facts to be very engaging and interesting. I actually learned a few facts regarding snakes! However, I still don't like them. The pictures are amazingly crystal clear and beautiful. I like the fact that I can double click (kindle version) on a picture and it

automatically brings it to a full screen picture. Unfortunately, throughout the book, the publisher made a few mistakes in not filling up all the empty spaces with beautiful, amazing, life like pictures of the highlighted snakes. Unfortunately, the plain picture of the Boa Constrictor (Loc. 97 of 388) does not emphasize the magnitude of this killer snake. It definitely did not do the Boa Constrictor justice. The Table of Contents should be printed on one page instead of two pages. Also, in the Table of Contents the spacing is off with the chapter titles: Corn Snake, Garter Snake, California King Snake, and the Milk Snake. As the reader, it bothers me when the spacing between words is not consistent. For example, in the first chapter in the fourth line of the subtitle "Snake Fact"s, there are too many spaces between the words "according" and "to" and "to" and "their". It looks like the columns must follow the block form, which I think is why the publisher spaced the words out. It seems that when I turn back pages to reread, the page text and pictures shifts. This is very confusing to the brain of an adult and as a child it must be even more so. Often a reader will memorize the text along with its placement on the page.
