BONUS!!! : THE BEST AMSTERDAM COFFEESHOP TOUR—,—,—,The strength and taste of cannabis have never been degraded through various genetic manipulation and growing conditions (hydroponics), and the cannabis market is much more than the drug of the 1960's and 70's. The demand for cannabis has nullified much of our understanding of the effects of the drug, and therefore the health and the next time you smoke a drug and not necessarily reflect the reality of the market.

Customer Reviews

Despite much prejudice over this topic, it is time for a reasonable debate on the benefits of Cannabis sativa. Being recently decriminalized in many parts around the world, one might have the chance to cultivate the plant either for personal use or supply to the legal industry. This book will help any beginner to understand all aspects involved in the cultivation of the Cannabis sativa.

Marijuana growing indoor now becomes more easy than in past. This book really made this easy. In this book the author guides at every step. I also started its growing indoor. I highly recommend this book.
