Customer Reviews

There are a lot of creative ideas in this book that you haven't heard before, and there are some that have been freshened up. Not to provide any spoilers, but there is an idea for a date night that you just won't believe! It's a lot of fun, with a lot of new thought. I hope they hurry up with the rest of this

series!

Well written book. If you need some practical advise, buy this one. Weddings can be expensive. And while we would rather spend whatever it takes to make a great day, realistically, that isn't always an option. Great advise on planning a wedding on a budget aren't easy to find. This one will help you.

This books takes away all the research on finding inexpensive ways to plan a great weddings! Even though I am already married, I plan on sharing information I wish I had known when I was planning my nuptials. I will definitely recommend this book to all my recently engaged friends and family!
