Microsoft PowerPoint 2013: Illustrated Introductory

Synopsis

Praised by instructors for its concise, focused approach and user-friendly format, the Illustrated Series engages both computer rookies and hot shots in mastering MICROSOFT POWERPOINT 2013 quickly and efficiently. Skills are accessible and easy-to-follow thanks to the Illustrated Series' hallmark 2-page layout, which allows students to see an entire task in one view. New Learning Outcomes outline the skills covered in each lesson, and larger full-color screens represent exactly what students should see on their own computers. Each unit begins with a brief overview of the principles of the lesson, and introduces a case study for further application.

Customer Reviews

I received my order quickly and appreciate that. But when buying new I was expecting the Access card with it for my class.

Love getting my textbooks on my kindle. Makes it much easier to do school work.

Good book. Just as described. Thank you
